The Man With The Wrong Idea.

A FAMOUS writer and statesman once said of a certain character "he was distinguished for ignorance; for he had only one idea and that was wrong."

There are many citizens of this sort of distinction and they are the kind that every community is better without.

There are many so-called ignorant people who have within them all the elements of good and progressive citizenship. Possessing a degree of natural intelligence and ideas, perhaps unexpressed, but nevertheless felt, they adhere at least to the right faction and do the proper thing by their town and fellows.

There are some men, however, who, just as the famous essayist said, are possessed of only one idea, and that is wrong. The man of the one wrong idea generally shouts it forth from the house tops. He is the town howler and may be also designated by the terms, knocker and kicker. One of the commonest types of this kind of individual is the man who declares that what was good enough for his grandfather should be good enough for him or for any other man of to-day, so he rails at progress, decries improvement and gives shrill utterances to his opinion. He is proud of his one thought in blissful ignorance that he is possessed of just one idea and that is wrong. We also find this type of individual in matters political—the man who has the idea that he is necessarily a Democrat or Republican because his father was and knows no other reason for his party affiliations. This is the kind that we frequently hear would vote for a yellow dog if he were just on his party ticket.

In matters of religion we encounter similar characters and many of them, for perhaps in nothing else is there such a preponderance of narrow mindedness. The one idea that a particular denomination is the only avenue leading to the pearly gates is not uncommon nor can this type be convinced that christianity, not creeds, determines the future welfare of our being.

Grains of Truth.

THE divorce court records are as full as ever of suits instituted by mismatched couples to sever the bonds of matrimony that tie them together in a legal knot. This goes to show that the secret of marital happiness is no better understood now than formerly. The cause undoubtedly lies in the fact that most people choose life partners whom they do not really learn to know until after they blindly promise to cherish forever. This is particularly true of those who marry just for the sake of marrying, believing it to be their proper sphere in life, and such cases are well illustrated by a little story which, though only a story, has more grains of truth therein than fiction. The story runs as follows: A girl is called up by telephone and after the customary hellos she hears the words "Will you marry me?" To which she replies: "Yes. Who is this, please?"

Marriage is the first consideration with many people and what men and women appear to be is of more moment with this kind than what they really are. If a woman has beauty to many men this seems all sufficient, but when a man comes to know her real self he awakens to the fact that he should have studied her better, for beauty and soul are oft times widely divergent. She may be a noble character and he may be a good man but their natures may not harmonize. Cherries are a pretty, delicious fruit, but when combined with milk the two do not go well together. Sour visages are the result of incompatibility. The percentage of divorcees will never be reduced until men and women study each other before they rush into matrimony.

The old superstition, "see a pin pick it up, all the day you will have good luck," is really a very clever one designed to make us saving and thrifty. Ninety-nine people out of one hundred pick up a pin because of the good luck that has been associated with it in the rhyme learned in our childhood days. Human nature is appealed to in some strange manners. We would pass a pin by if we were told to save it and be economical, but we hesitate to pass up the luck.

WHEN you get in jail in Seattle they count you out in 60 seconds as has been demonstrated there by a Judge who sentenced a man to one minute's imprisonment.

THE appointment of Edgar as Warden at San Quentin is a good one but if the prison directors had named Veale they couldn't have possibly made a beef of it.

A Healing Gospel.

The Rev. J. C. Warren, pastor of Sharon Baptist Church, Belair, Ga., says of Electric Bitters: "It's a Goodsend to mankind. It cured me of lame back, stiff joints and complete physical collapse. I was so weak it took me half an hour to walk a mile. Two bottles of Electric Bitters have made me so strong I have just walked three miles in 50 minutes and feel like walking three more. It's made a new man of me." Greatest remedy for weakness and all Stomach, Liver and Kidney complaints. Sold under guarantee at Simmons' drug store. Price 50c.

Congregational Chnrch.

Rev. Mr. Cragin's topic in the Congregational Church to-morrow (Sunday) morning will be one suggested by the pastor's visit to Palestine and by the Sunday School lesson for the day, "The Jordan and the Baptism of Christ." In the evening his subject will be "What Shall I Read?" a young people's lecture.

NEW CITY HALL DAY IN SONOMA.

Arrangements Being Per-
fected to Celebrate
Laying of Corner
Stone.

The City Trustees have about perfected arrangements for the celebration of the laying of the corner stone of the New City Hall. It has been decided to ask the Grand Lodge of the Masonic order to lay the corner stone and the speaker of the day will be either Hon. H. C. Gesford or ex-Congressman Frank Coombs. There will also be music and vocal numbers by Mrs. Lulu Emparan, daughter of the late General Vallejo, and Miss Ruth Poppe, daughter of Mayor J. E. Poppe.

The day promises to be a big one for Sonoma.

In the evening there will be a ball at Union Hall, the proceeds of which will be turned over to the Woman's Club to be added to the permanent fund created a short time ago for Plaza improvement after the completion of the new municipal building. The Marine Band will play at the dance, for which elaborate preparations are being made.

May Change Ferry Slip.

The Harbor Commissioners are considering the advisability of removing the ferry slip of the California Northwestern Railroad from the foot of Market street to the terminus of the Powell-street Railroad at North Beach. They must make way for the Western Pacific, who are more than anxious to land their passengers at the foot of Market street.

A member of the Commissioners, in discussing the proposed change a few days ago, stated that he thought it would be for the best interest of the Broad and Narrow Gauge roads as it would cut down the time between San Francisco and the Marin shore about ten minutes. He also was of the opinion that if slips were established at the foot of Powell street, that there would be less danger of collision during foggy weather.

Sunset Telephone Company Improvements

Mr. N. L. Jones, county manager of the Sunset Telephone Company, accompanied by John Glass, superintendent of construction of the same company, were in town Wednesday. The gentlemen were here on business connected with the installing of a new trunk line between this place and Santa Rosa and intermediate points. This will make the service a splendid one. The company is devoting much attention to this field and will make many improvements that will be greatly appreciated by every one in the valley.

The Congregational Church Bequest

Just what disposition will be made of the \$1,000 bequest to the Congregational Church of this place by the late Mrs. Craig has as yet not been decided upon, although the matter is being informally discussed by the trustees and members of the church. One plan is to apply \$500 to the building of a parsonage, for which about \$350 has already been subscribed, and to put the remaining \$500 of the bequest out at interest in order to keep the pipe organ of the church in repair. The pipe organ was a gift of Mrs. Craig some years ago.

Duck-Hunters Return.

The Spreckels hunting party that went down Sonoma Creek to the duck preserves last week returned on Sunday via the creek route but were unable to get any further than the Engler place. At that point George Engler went to the rescue and helped them make a landing. The party had a large bunch of ducks and enjoyed the experience of taking the trip by water.

The Yellow Fever Germ.

It has recently been discovered. It bears a close resemblance to the malaria germ. To free the system from disease germs, the most effective remedy is Dr. King's New Life Pills. Guaranteed to cure all diseases due to malaria poison and constipation. 25c at Simmons' drug store.

Bad Blood

Is responsible for most of the diseases and ailments of the human system. It seriously affects every organ and function, causes catarrh, dyspepsia, rheumatism, weak, tired, languid feelings and worse troubles. Take Hood's Sarsaparilla which purifies and enriches the blood as nothing else can.

For testimonials of remarkable cures send for Book on the Blood, No. 3, C. I. Hood Co., Lowell, Mass.

The Storm's Havoc.

The recent storm wrought great havoc in the vicinity of El Verano and the big iron bridge erected by the county in 1889 presents a sorry sight, as does also the approaches to the bridge. The rush of water in Sonoma creek caused a great caving of the bank and the approaches to the bridge were washed away in such a manner that the east end of the structure has dropped down about four feet. The handsome maple trees that added so much to the drive-way along that portion of the road are gone and travel will be impossible over the bridge for some time.

COMES INTO A BIG FORTUNE.

Young Man Well-Known in this Valley Inherits Half a Million Dollars.

Allert Whitney, a son of Mrs. Burtis of San Francisco, who has often visited his aunt, Mrs. J. P. Weems on Broadway in this place, lately inherited half a million dollars from an uncle who died recently in England.

As young Whitney is still a minor his mother, as guardian of the heir, will have full control of his inheritance. On account of the many duties that will devolve upon her pending the settlement of the big estate, Mrs. Burtis will give up the care of the large house she has been keeping in San Francisco. Mr. and Mrs. Weems have been spending the winter months with her.

Training Quarters for Prize Fighters.

Harry Bernard, the popular comedian who owns a ranch at Baxterville, south of town, is being urged by San Francisco friends to establish training quarters for prize fighters, as the climate and other advantages in this valley are well adapted to the needs of the athlete.

James Coffroth and Sam Berger are pulling for him and it may not be long before Willus Britt will be seen strolling along our roads with one of his famous Lopez cigars or perhaps Battling Nelson will appear in our midst and like a Viking of old will be noticed hiking along to the springs. And what is more, James Edward himself may loom up and give his famous monologue at one of Bernard's vaudevilles. All this is possible when the training quarters get to doing business at Baxterville. Bob Fitzsimmons may even come either and after we give him a fill of our ozone and he imbibes of and leaves in the waters of our springs, it is possible that he will become entirely rejuvenated and may be induced to sign articles with some of our local athletes.

Joe Gans will, without a doubt, like Baxterville from the fact that chickens are so plentiful there.

We will be strictly in the game when all this scheduled program comes off.

Passing of a Young Woman.

Miss Marguerite Andreaux died on Monday of this week after an illness of some duration. She had been a sufferer from consumption. Miss Andreaux was not yet out of her twenties and her death was particularly sad as the family lost their mother only a short time ago and the present bereavement coming so close upon the other is keenly felt by those left to mourn her loss. Miss Andreaux made her home with Miss Robin and was a seamstress.

The funeral took place on Wednesday and was well attended.

Mrs. Fred Batto is a sister of deceased.

Parry on Rate Making and Disasters.

D. M. Parry, president of the National Manufacturers' Association, writes to "American Industries" the following:

"I believe that government rate-making means the destroying of competition, and not monopoly; that it must be supplemented by legal pooling, that the results would tend to inflexibility in rates, the stopping of the wheels of progress, the magnifying of the power of the government to a dangerous degree and the introduction in our political life of a never-ending source of strife between various parts of the nation. In fact, I believe it would be a national crime against the fundamental principles of a free country and a blow in the face of our great prosperity."

"Let those who favor government rate-making answer the arguments made against it. Incidentally it is no argument to charge the who oppose the proposition with being influenced by the railroads; nor is it a valid argument to say the air with passionate tirades against the granting of rebates and other practices that are condemned by all."

"The question is one of the greatest moment, because it involves a departure in government policy that may have far-reaching consequences leading in the direction of socialism. We have got along for fifty years without government fixing of railroad rates, and surely there are no good reasons for haste in considering the advisability of entering on such a course at the present time. At least it seems to me that the question is one that should be most carefully considered and that ample opportunity should be given for the fullest discussion upon it."

"In conclusion I sincerely hope the majority of the members of this association will support the majority sentiment of its board of directors in the conclusion that there should be no immediate closure of the debate on government rate-making in this Association."
